

# **Sponsorship and Exhibition Opportunities**

**UK Kidney Week**  
**5-7 June 2023**  
International Convention  
Centre, Newport, Wales

# WELCOME AND THANK YOU FOR YOUR INTEREST IN **UK KIDNEY WEEK 2023**

In 2023, UK Kidney Week will be at the International Convention Centre in Wales as an in-person conference. As usual, we are putting together a great three-day programme which will appeal to a huge range of delegates across the entire multi-disciplinary team and are expecting over 900 attendees.

After two years of virtual conferences, and last year's hybrid event, we're excited to be back with a new event space solely for UKKW and with a big emphasis on exhibitors. We're looking forward to providing you with more time with delegates, greater engagement, and greater footfall. We've done this by adjusting the layouts, expanding the exhibition space, increasing the marketing and communications surrounding UKKW 2023 and carefully reviewing our programme.

UK Kidney Week 2023 is an invaluable opportunity to meet and network with the whole UK kidney community.

**We're looking forward to you joining us for UK Kidney Week 2023!**

# UK KIDNEY WEEK 2023

## **A short series of webinars building on UKKW content to support UKKA members' CPD**

There will be no virtual or hybrid element to UKKW 2023. The educational content of UKKW is best engaged with in-person, and we would like to see as many people as possible from the kidney community coming together in Wales.

There will be a short series of succinct webinars in September that builds on the content of UKKW to support members' CPD.

This series will not be an alternative or replacement for the face-to-face conference.

# OUR CONFERENCES

**UK Kidney Week 2022** took place in-person and virtually between the 7th and 9th of June 2022.

This was the first in-person UKKW event since 2019 and was hosted at the Hilton Metropole in Birmingham.

There were 13 sponsored symposia in the programme over the three-day period.

**121 speakers**

**16 countries**

"Fascinating aspects of renal medicine that I haven't read about much - thank you for the amazing insights and overviews."

**142 posters**

**63 abstracts**

"A really varied programme that covered an interesting mix of topics ranging from directly clinically relevant to research in progress, including models being developed. Lots of opportunities for interactions between delegates and presenters."

**30 exhibitors**

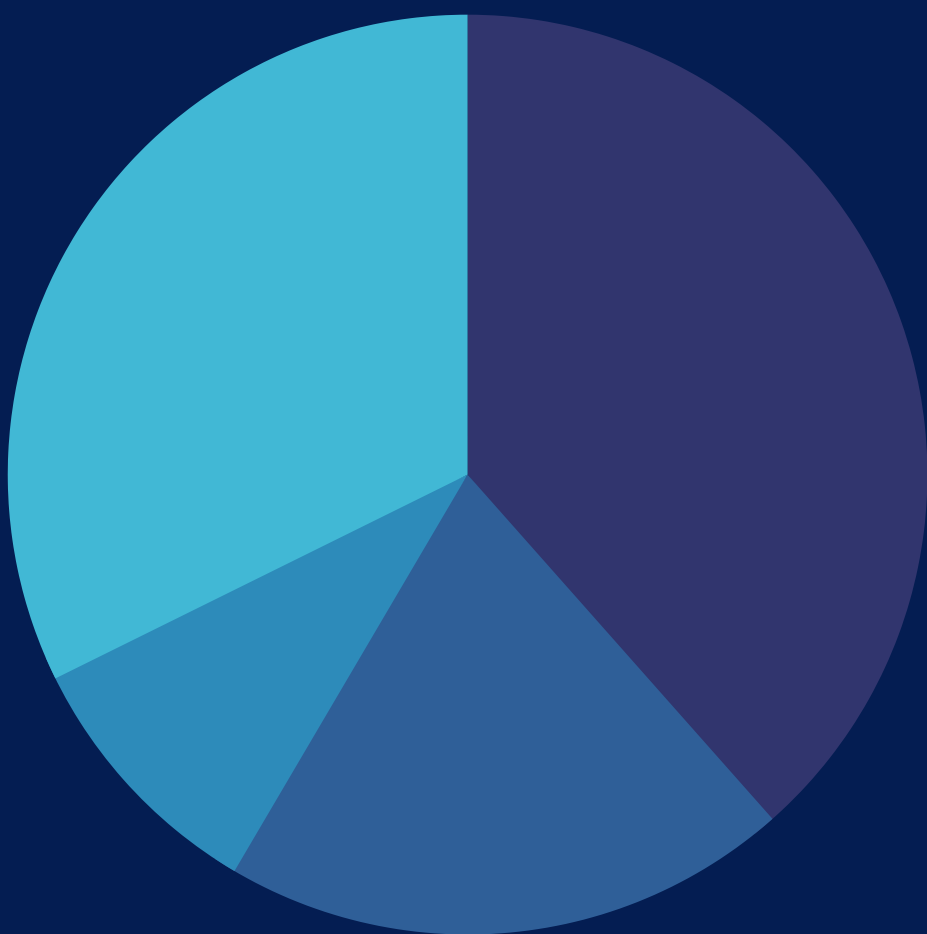

**45 renal units**

"I thoroughly enjoyed my time and thought it was very well organised and had a range of topics of interest."

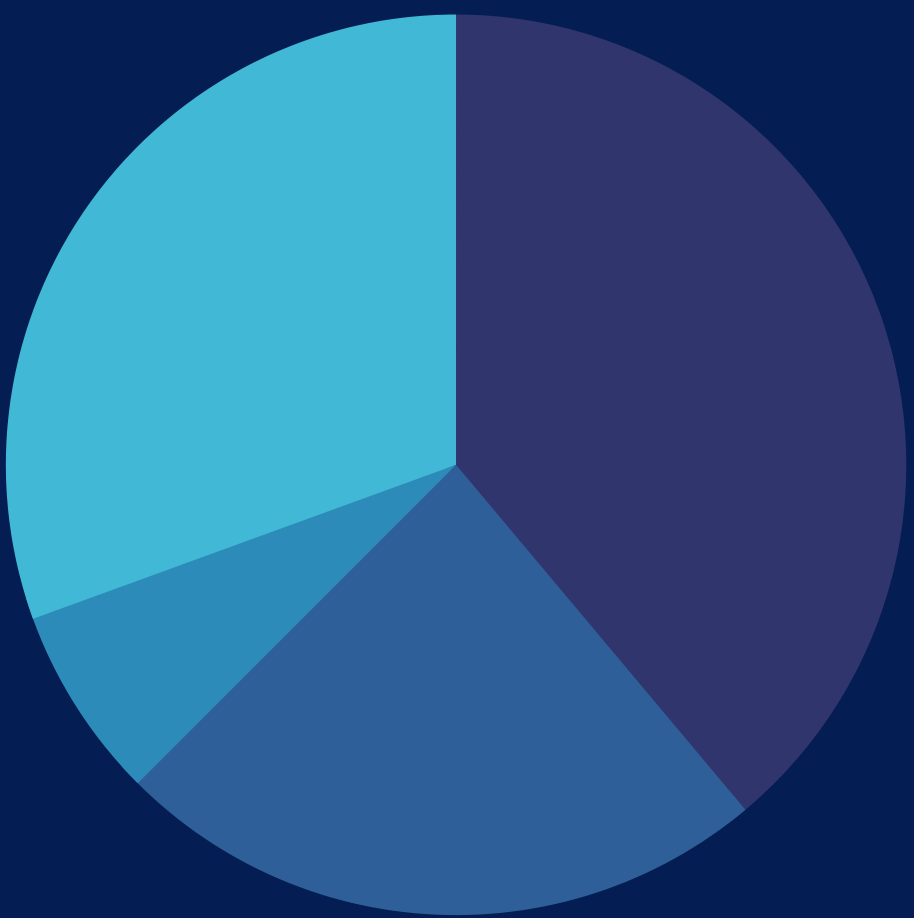

# OUR DELEGATES
