

UK Kidney Week 2025

10 – 12 June 2025

Bournemouth International Centre

CONFERENCE PROGRAMME

11:30 - 12:30

Location: Windsor Exhibition Hall

Lunch and exhibition

12.30 - 13.45

Location: TBC

Opening Plenary

Presidents' Welcome

Clare Morlidge

Katie Vinen

Keynote Speaker

Looking back at the history of kidney care

John Feehally

Looking to the future - what's next for kidney care?

Stephen Powis

O'Donoghue Lecture presented by David Wheeler

14.00 - 15.30

Location: TBC

Nephrology challenges in global healthcare

Chairs: TBC

UKKA International work and opportunities

Epidemic kidney disease in South Asia and Central America: What we (mostly still don't) know

The relationship between uk & global nephrology

The burden of decisional regret in haemodialysis in LMICs in Southeast Asia and the need for supportive care

Striving for scientific and nephrology excellence - A siege to bring global unity

Abstracts:

550: APOL1 Kidney Disease in the UK: Prevalence of high-risk genotypes and disease burden
Amrita Ramnarine

452: The anti-APRIL antibody sibeprenlimab reduced circulating immune complexes in patients with IgA nephropathy in the phase 2 ENVISION randomized controlled trial
Melanie Edwards

14.00 - 15.30

Location: TBC

Dual challenges: Addressing the interplay between mental health and kidney disease

Chairs: TBC

Mental health and kidney disease: highlights from the MOODMAPS study

Unequal care, unequal outcomes: severe mental illness and kidney disease

Panel Discussion

Abstracts:

538: A systematic review and meta-analysis of the co-occurrence of severe mental illness in chronic kidney disease
Lauren Fitzgerald

253: Developing a new working relationship with talking health teams
Michaela Dicks

14.00 - 15.30

Location: TBC

NEPHwork: Dragon's Den

Chairs: TBC

NEPHwork: driving trainee-led collaborative research in nephrology

Dragons Den (TBC)

Abstracts:

363: InvestiGating kidney biopsy practices and outcomes (IGNITE): Results from a UK-wide study of native kidney biopsy practice
Sacha Moore

355: Improving outcomes following medical PD catheter insertion – an ongoing quality improvement project
Yusuf Jinadu

14.00 - 15.30

Location: TBC

Tired of a lack of evidence

Chairs: TBC

Evidence gaps in symptom management

Managing pain and itch

Fatigue: the overlooked burden

Paediatric perspective: formulary update

Q&A and Discussion

Abstracts:

171: the effect of a 20-week structured exercise program on symptom burden among hemodialysis patients: a quasi-experimental study
Bushra Alshammari

463: Patient reported outcomes analyses from AURORA 1 clinical trial: Lupus Impact Tracker and LupusPRO
Melanie Edwards

14.00 - 15.30

Location: TBC

The cyclical journey of the AKI patient: Points for intervention and improvement

Chairs: TBC

Recent trials in perioperative AKI – what do PROTECTION, SIRAKI and POISE3 trials tell us?

Moving beyond the syndrome: is it possible to subphenotype AKI?

The patient journey after AKI

Panel discussion about post AKI experience

Abstracts:

507: Insulin-like growth factor-binding protein is upregulated after acute kidney injury in those with major adverse kidney events at day 90

Rebecca Noble

465: Does timeliness of post-discharge renal function review after inpatient acute kidney injury influence readmission and mortality risk?

Benjamin James

14.00 - 15.30

Location: TBC

Cancer, kidney and cardiovascular disease

Chairs: TBC

What are the challenges in treating cancer in patients with CKD?

What cardiovascular complications occur in cancer patients?

Is cancer common in people on KRT, and what is the relationship with CVD?

The patient experience

Panel discussion with Q&A

Abstracts:

382: Acute Kidney Injury is associated with a significant increase in mortality after Upper Gastro Intestinal cancer surgery

Geraint Herbert

491: The influence of comorbidities on longitudinal health-related quality of life in people with chronic kidney disease in the UK: A multicentre cohort study (NURTURE-CKD).

Irene Adasi Boateng

14.00 - 15.30

Location: TBC

Translating strategies to regulate gene expression into novel kidney disease therapies

Chairs: TBC

Targeting the podocyte with gene therapy, therapeutic development from mouse to man

RNA interference therapeutics to treat IgA Nephropathy

Delivering oligonucleotide therapies during normothermic machine perfusion of donor kidneys

Abstracts:

483: ANKHD1 increases lipid droplet accumulation in renal cells to protect against cellular stress
Jordan Mullenger

471: A pre-clinical trial of AMPK activators in a mouse model which phenocopies Autosomal Recessive Polycystic Kidney Disease
Laura Wilson

15.30 - 16.00

Location: TBC

Break and exhibition

16.00 - 17.00

Location: TBC

Moderated poster sessions

Tuesday 10 June

17.15 - 18.15

Location: Solent Hall

National Kidney Leadership Summit

Chair: TBC

This is a promotional symposium sponsored and organised by AstraZeneca and is intended for GB HCPs only.

AstraZeneca has provided a sponsorship towards this independent programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the AstraZeneca sponsored symposia.

17.15 - 18.15

Location: Tregonwell Hall

Improving CKD management: Support the patient, support the system

Chair: TBC

Speakers: Andrew Frankel & Smeeta Sinha

This promotional symposium has been developed and funded by Boehringer Ingelheim for UK and ROI HCPs. Boehringer Ingelheim products will be discussed at this meeting. Boehringer Ingelheim has provided funding towards UKKW 2025; however, has had no input on the agenda, speaker selection, presentations, or collateral content, except for this promotional symposium session, which Boehringer Ingelheim is fully responsible for.

17.15 - 18.15

Location: Purbeck Lounge

IgA nephropathy: Translating guidelines, evidence and data into clinical practice

Chair: TBC

This promotional symposium is organised and funded by CSL Vifor, including honoraria for the speakers. The symposium is intended for UK Healthcare professionals only. CSL Vifor products will be discussed. Prescribing information and adverse event reporting information is available at this meeting.

18.15 - 19.15

Location: Purbeck Hall

Welcome Reception

18.15 - 19.15

Location: TBC

SpR Club Reception

19:30 - 22:30

Location: Marriott Highcliff

Speakers' Dinner *Invite Only*

07:45 - 08:00

Location: TBC

UK Kidney Association Annual General Meeting

08:00 - 08:15

Location: TBC

75th Anniversary Celebration

08:30 - 08:45

Location: TBC

Plenary

Keynote Speaker

Illuminating mechanisms of kidney disease with intravital imaging

Andrew Hall

Donna Lamping Lecture

Hannah Young

Lifetime Achievement Award - presented to *Graham Lipkin*

10:00 - 10:45

Location: Solent Hall

Optimising RAASi therapy and managing hyperkalaemia in cardiorenal disease: an MDT approach

Chair: TBC

This is a promotional symposium sponsored and organised by AstraZeneca and is intended for GB HCPs only. AstraZeneca has provided a sponsorship towards this independent programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the AstraZeneca sponsored symposia.

10:00 - 10:45

Location: Tregonwell Hall

Itching to talk: Where are we with understanding itch in dialysis patients ?

Chair: TBC

CSL Vifor

This promotional symposium is organised and funded by CSL Vifor, including honoraria for the speakers. The symposium is intended for UK Healthcare professionals only. CSL Vifor products will be discussed. Prescribing information and adverse event reporting information is available at this meeting.

10:00 - 10:45

Location: Purbeck Lounge

Assisted Peritoneal Dialysis: A Lifeline or a Luxury

Chair: Richard Corbett

10:45 - 18:30

Location: TBC

Interventional Nephrology Group Drop In Sessions - All Day

Sessions coordinated by by Saeed Ahmed

11:15 - 12:15

Location: TBC

Best Clinical Abstracts

Abstracts:

- 195: Cardiorenal outcomes of pharmaceutical and non-pharmaceutical obesity interventions in people with type 2 diabetes and chronic kidney disease: a propensity-score matched cohort study
Thomas Wilkinson

- 530: The Role of Leucine Rich Alpha-2 Glycoprotein-1 in ANCA-associated Vasculitis
Harry Sansum

- 372: Creatinine Muscle Index (CMI) Is Independently Associated with Sarcopenia and Mortality in Chronic Kidney Disease
Thomas McDonnell

- 459: Transforming Kidney Education for Primary Care Professionals: Achieving Global Reach through The Rest Is Kidney Podcast
Joana Teles

- 132: VALIANT: Randomized, multicenter, double-blind, placebo-controlled, phase 3 trial of pegcetacoplan for patients with native or post-transplant recurrent C3G or primary IC-MPGN
Daniel Gale

- 379: Structured Post-AKI Follow-Up: A Nurse-Led Kidney Health Check Model for Improved Pharmacological Interventions and secondary prevention
Leah Torr

11:15 - 12:15

Location: TBC

Caring for our carers

Chairs: TBC

Sharing personal experiences of being a carer

Giving carers a space to share: Carers Kidney Information Network

Ensuring no one face kidney disease alone: Kidney Care UK

Recognising the Psychological Impact of Being a Carer

The human genetics of cilia disorders and the ambitions of CILIAREN

Abstracts:

385: Together in kidney care: advancing peer support with KQIPs collaborative approach
Udaya Udayaraj

11:15 - 12:15

Location: TBC

Enhancing Nursing in Kidney Care: education, engagement, and development

Chairs: TBC

How ANNUK are delivering this

The impact of structured kidney care courses on nurse education

The unique challenges and opportunities for overseas nurses

The role of Communities of Practice (CoP) in fostering continuous learning

Abstracts:

324: Empowering Patients and Implementing a Preventative approach to Acute Kidney Injury through a North West England Nurse-led Collaborative Initiative
Amanda Balshaw-greer

11:15 - 12:15

Location: TBC

CKD-MBD: time for a paradigm shift?

Chairs: TBC

KDIGO CKD-MBD Controversies – Introducing Future Directions

Inflammation and Gut Dysbiosis as Drivers of CKD-MBD

The role of bone biopsy and bone turnover markers in CKD-MBD

Abstracts:

313: Prevalence and Burden of CKD-Associated Pruritus in the UK: data from the CENSUS-EU study
James Burton

11:15 - 12:15

Location: TBC

Home haemodialysis - assembly and instructions for use

Chairs: TBC

Case Studies

Video recording of Patients

Monitoring AVF

Predicting Hospital Admission

Abstracts:

183: Comparative performance of home haemodialysis devices in real-world use
Michael Sagmeister

11:15 - 12:15

Location: TBC

The power of big data to make a difference

Chairs: TBC

Update on BHF Data Science Centre Kidney Catalyst Research prioritization and phenotyping

Big Data in Transplantation

Using data to understand health inequalities

Recognising the psychological Impact of Being a carer

Abstracts:

147: Comparing Ratios of Acute to Chronic Dialysis in England: Insights from OpenSAFELY and HES UKRR Data
Esther Wong

11:15 - 12:15

Location: TBC

Computational strategies to understand kidney omics

Chairs: TBC

Finding Patterns in the Kidney - multiomic spatial approaches to glomerular disease

Mathematical modelling to augment finding patterns in the kidney

Abstracts:

298: Vincristine treatment reverses podocyt damage in focal segmental glomerulosclerosis
William Mason

12:30 - 13:30

Location: Poster Halls

Moderated poster session

13:30 - 14:30

Location: Windsor Exhibition Hall

Lunch & exhibition

14:30 - 16:00

Location: TBC

UKKA Sustainable Kidney Care programme: time to scale up

Chairs: TBC

Procuring the Future We Want - An Update from GREEN-K and what this means for UK Nephrology

An atlas of variation for sustainable UK kidney care

Sustainable Kidney Care - champions leading change'

Abstracts:

584: Trying to Reduce Unnecessary Carbon in Haemodialysis (TRUNC-HD): A regional sustainability quality improvement project by a kidney network in collaboration with Kidney Quality Improvement Partnership
Stephanie Choo

371: Sustainability within automated peritoneal dialysis (APD).
Charlotte Callaghan

14:30 - 16:00

Location: TBC

It's Friday, 5pm, and the phone rings...

Chairs: TBC

Trouble in Transition Clinic
TBC

Abstract:

350: A novel form of apparent hypokalemia
Fiona Karet

Dialysis Dilemmas: discontinuation of therapy
TBC

Abstract:

260: Acute Kidney Injury in People with HIV and APOL1 Kidney-Risk Variants
Rachel Hung

Pregnancy and Kidney Disease: A Delicate Balance
TBC

14:30 - 16:00

Location: TBC

Diet and CKD – controversies and patient perspectives

Chairs: TBC

Exercise and the Protein Question – a fine balance

Dietary concordance in CKD – Does psychology matter?

Plant Based Diets in CKD – The For and Against Debate

Abstracts:

404: Setting up a dietetic group education session for patients with Chronic Kidney Disease: a service improvement project

Amy Greenhough

250: Digital health education for patients with chronic kidney disease: strengthening enablers and improving patient outcomes in the NHS

Emma Vaux

14:30 - 16:00

Location: TBC

Helping older patients make treatment choices about dialysis and transplantation

Chairs: TBC

The role of the geriatrician in the Kidney unit: The South East London experience

Make it meaningful: The role of an Occupational Therapist in AKC

Vascular access for the older haemodialysis patient

Transplantation for Older Kidney Patients: and Evolving Landscape

Abstracts:

239: New haemodialysis starters over 80 years old - demographics, pre-dialysis counselling, and outcomes

Katie Prior

387: Plasma and Urinary KIM-1 in Chronic Kidney Disease: Prognostic Value and Implications for Kidney Failure and Mortality

Thomas McDonnell

14:30 - 16:00

Location: TBC

Beyond the Blueprint: Multiomics in Kidney Disease Research

Chairs: TBC

Cause or consequence? A multiomic journey in biomarker discovery

Multiomic biomarkers are informing diabetic kidney disease risk

Where we are born, live and work matters: Resources to embed exposomics in kidney research

Abstracts:

409: Organ-specific structural and molecular features of the kidney lymphatic vasculature

Daniyal Jafree

488: Ex vivo Precision Cut Kidney Slices (PCKS): a novel model for senescence mechanisms in Chronic Kidney Diseases

Lihuan Liang

14:30 - 16:00

Location: TBC

The rising tide of demand for dialysis: practical steps to help you stay afloat

Chairs: TBC

What has been happening and future projections: UK renal registry data and prediction model on demand

What was not measured so far: Capturing people on conservative care – A Scottish Experience

Capturing Dialysis Capacity – the Kidney DOM

Demand and Capacity Management in Practice – a London experience

Abstracts:

428: Modelling the determinants of unplanned dialysis initiation; A UK Renal Registry analysis
Winnie Magadi

234: CORE Kidney Project: Transforming CKD Care-A Collaborative ICB-Level Solution for Early Detection, Case Finding , Coding & Optimised Management
Harsha Wodeyar

14.30 - 16:00

Location: TBC

Vascular access dilemmas: evidence, debate, and patient perspectives

Chairs: TBC

Introduction Setting the Scene: Navigating Vascular Access Challenges in Modern Nephrology

Mapping National Variation in Haemodialysis Central Venous Catheter Management: A UK-Wide Survey

Lived experience of vascular access: What I wish I would have been told

Debate – AVF vs. Tesio: What's the Best Vascular Access for elderly Haemodialysis Patients?

Guided Panel discussion and Q&A

All Speakers

Abstracts:

600: Behind the Needle: A Qualitative Exploration of Healthcare Professionals' Perspectives on Haemodialysis Needling to Enhance Patients' Overall Experience
Eunice Ann Doctolero

561: A Review of the effectiveness of the TuLIP (Tunnelled Line Intraluminal Plasty) Technique for Catheter Salvage in Haemodialysis Patients
Shruthi Justin

16:00 - 16:20

Location: TBC

Break and exhibition

16:20 - 17:20

Location: Solent Hall

Beyond Symptom Management: The Disease-Modifying Effect of Kinpeygo® 4 mg ▼ (modified-release hard capsules budesonide)

Chair: Lisa Willcocks

Transforming IgA Nephropathy Treatment: The Role of Kinpeygo® 4 mg ▼ (modified-release hard capsules budesonide) in Preventing Nephron Loss
Ruth Pepper

Optimising Patient Outcomes: Real-World Experience and Practical Considerations in IgAN Management
Richard Hull

Q&A and Open Discussion - Closing Remarks & Final Reflections

The symposium is sponsored by STADA UK. The symposium is intended for UK healthcare professionals only and may contain promotional content.

16:20 - 17:30

Location: Tregonwell Hall

Transforming kidney care

This is a promotional symposium sponsored and organised by AstraZeneca and is intended for UK HCPs only. AstraZeneca has provided a sponsorship towards this independent programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the AstraZeneca sponsored symposia.

16:05 - 17:05

Location: Purbeck Lounge

Otsuka

17:30 - 18:30

Location: TBC

Behind closed doors: The invisible chaos. How can we support patients who self neglect/hoard? A panel and audience discussion

Chairs: TBC

Starting a conversation about how we can all support patients with self-neglect & hoarding challenges - panel & audience discussion

The role of a Community Interest Company - panel & audience discussion

Prevention and risk from a community safety perspective - panel & audience discussion

Can the Law Help? 'A binary best interest choice' Safeguarding v control

A Case Study – an insight into working with an individual

Abstracts:

241: The impact and efficacy of an early home visit in a low clearance pathway
Elettra Agordati

17:30 - 18:30

Location: TBC

Clinical trials and tribulations: innovative methods and inclusive designs

Chairs: TBC

Sustainable and greener clinical trials: strategies to reduce the carbon footprint of clinical trials

Digitally enabled clinical trials: how digital tools can be used for the recruitment, assessment, and retention of participants within clinical trials

Increasing diversity and inclusion in nephrology clinical trials

Round table Q&A

Abstracts:

322: The relative and absolute quantity of qualitative research in nephrology, compared to other specialities: a scoping review covering two decades
Matt Gittus

17:30 - 18:30

Location: TBC

Blood pressure management in dialysis patients: An overview of the UKKA 2025 guidelines

Chairs: TBC

What's new, what's different and challenges faced

Patient perspective

Non-Pharmacological Management of HTN in dialysis

Pharmacological management

BP measurement and Target BP

Abstracts:

130: A novel system to continuously estimate blood pressure in real time during haemodialysis: comparison against standard brachial cuff blood pressures

Daniela Viramontes Hörner

17:30 - 18:30

Location: TBC

#BloodyAmazing Kidneys – moving the dial

Chairs: TBC

Why #BloodyAmazingKidneys

How can we open primary care to respond to the growing need for CKD diagnosis/screening

How combining the best of primary and secondary care can move the prevention dial

What I wish I'd known before and after my CKD diagnosis

Making the case for change" what is working in other countries

Q & A - Discussion of how these learnings can take us forward in changing the dial on the relentless rise in CKD and practical steps to do so.

Abstracts:

270: Raising awareness of chronic kidney disease (CKD) and campaigning for the adoption of a national action plan on CKD in Scotland

Bushra Riaz

17:30 - 18:30 Location: TBC

Best practices in renovascular disease

Chairs: TBC

Best practice in Atherosclerotic renovascular disease

Best practice in fibromuscular dysplasia

Discussion and Q&A

Abstracts:

398: Monitoring of potassium and eGFR following renin angiotensin system inhibitor (RASi) initiation – a necessary safety guideline, or a costly limit to optimisation of BP treatment in primary care?
Kristin Veighey

17:30 - 18:30 Location: TBC

Cilia and cystic kidney disease

Chairs: TBC

Cilia and paediatric cystic kidney diseases (ARPKD/NPHP): Underpinning basic science session

Cilia and therapeutics of renal ciliopathies

How can contributing to research help understanding?

Abstracts:

502: Genetic mutation type and cerebral aneurysm screening in ADPKD patients
Noella Ahn

17:30 - 18:30

Location: TBC

Peritoneal dialysis in focus: Innovations, patient perspectives, and practical approaches for 2025

Chairs: TBC

Framing the Future of Peritoneal Dialysis: Key Themes for 2025 and beyond - Future-Proofing PD

Lived experience of PD – what clinicians didn't tell us before we started PD but we wish they had

Glucose in PD: Ally or Enemy? Alternatives on the Horizon

Different strokes for different folks.' A decade of experience with Weighted PD catheters

Abstracts:

567: Creating a standardised root case analysis tool for post-peritonitis: A regional approach?
Catherine Stannard

18:30 - 19:30

Location: Free Time

Break

19:30 - 23:00

Location: Purbeck Hall

Conference Dinner (pre-reservations)

Thursday 12 June

08:30 - 09:45

Location: Solent Hall

Opening Plenary

Chairs: TBC

Keynote Speaker

The Importance of Addressing that Gut Feeling

Kelly Lambert

Osman Award Lecture

Amy Jane McKnight

Stewart Cameron Award Lecture

Becky Foster

10:00 - 10:30

Location: Solent Hall

Management of low haemoglobin in dialysis patients: Comparing the new KDIGO and UKKA Guidelines

This promotional symposium is organised and sponsored by MEDICE UK and is intended for UK HCPs only. MEDICE UK products will be discussed in this meeting.

10:00 - 10:30

Location: Tregonwell Hall

Baxter - TBC

10:00 - 10:30

Location: Purbeck Lounge

Finding rare diagnoses in common kidney stones

Speakers: Shabbir Moochhala Graham Lipkin

10:30 - 11:00

Location: TBC

Break and exhibition

11:00 - 12:30

Location: TBC

Management of patients after kidney transplantation – a multiprofessional, evidence based approach

Chairs: TBC

Immunosuppression, rejection risk and infections – evidence based approach

How to prevent cardiovascular events in after kidney transplantation

Prevention of neoplasms in post kidney transplantation

Patient perspective

Panel discussion

Abstracts:

474: Transplant care in the UK - what do people with kidney disease think?
Fiona Loud

505: Is this what Nurses working in Renal need.? A four day Renal Nurse Education Programme. How does it evaluate?
Ann-Marie McCarthy

11:00 - 12:30

Location: TBC

Tried & tested: Tackling health inequalities in CKD with community outreach & patient education across England & Wales

Chairs: TBC

The Hidden CKD Toolkit – how to set up a CKD Community Outreach Programme

The South Wales D-PACTED experience: Lessons learned in running a DKD peer-educator programme

Leveraging ICB practitioners and local policy makers' feedback on the HIDDEN-CKD model to understand the barriers and opportunities for implementing community kidney screening

Evidence for early CKD education: An overview of a recently completed evidence synthesis to identify inclusive education and information interventions for all people managing early-stage chronic kidney disease

London Kidney Network & Kidney Care UK – live interactive webinars for people living with early-stage CKD

Educating Alia and Ali: Breaking Barriers in CKD Care

Kidney Essentials: Digital Health Education for Patients With Chronic Kidney Disease

The Southampton Kidney Health Programme: a pilot multidisciplinary-led primary care network patient education programme

CKD patient education: What has and hasn't worked? Hearing from those with lived experience

Abstracts:

327: A Pilot of Automated Reporting of KFRE
Shahmir Rashid

616: Health Inequalities in kiDney Disease: mEeting the urgent need to identify Early disease in high-risk commuNities: (HIDDEN-CKD) – fidelity of implementation of Peer-led kidney screening
Roseline Agyekum

11:00 - 12:30

Location: TBC

Challenges and opportunities for rehabilitation in CKD

Chairs: TBC

Introduction: Frail and hospitalised with kidney disease *John Holland*

Interprofessional working case studies in practice

Action plan: Building a business case for AHP provision within your service
Laura Lew, helena Jackson & Lyndsey Abdunnassir

Q&A

Abstracts:

158: Why hasn't physical activity been implemented in practice within kidney care: A comprehensive review informed by implementation science
Hannah Young

527: The multi-professional workforce in the London Kidney Network - roles, challenges and variation
Katie Durman

11:00 - 12:30

Location: TBC

Integrating kidney genetics into your clinical practice

Chairs: TBC

Case 1: Kidney stones in a young female (12 yr) patient (Differential inc. primary hyperoxaluria)

Case 2: Unexplained kidney failure in a 30 year old man (Differential incl. NPHP)

Case 3: Proteinuria in a 42 year old female (Differential inc. nail-patella syndrome)

Speakers: TBC

Abstracts:

499: National whole genome sequencing service in renal cystic disease impacts patient management and prognostication
Tobias Maccarthy

504: Establishing and delivering a renal genetics service within the NHS: lessons learnt over 20 years in practice
Joshua Griffiths

11:00 - 12:30

Location: TBC

Multi-morbidity – the importance of the cardio kidney metabolic syndrome

Chairs: TBC

Diagnosis, epidemiology, and screening of CKM

CKM – A nephrologists take-home points on management

CKM – A cardiologists take-home points on pathophysiology and management

CKM Q&A panel discussion

Abstracts:

- 137: Variation in acute myocardial infarction management by kidney function across cardiology centres in England: a cross-sectional study using the Myocardial Ischaemia National Audit Project (MINAP)
Patrick Bidulka
- 352: Impact of Integrated Cardiovascular-Kidney-Metabolic Care on Mortality and Renal Outcomes: A Propensity-Matched Analysis
Saif Al-Chalabi

11:00 - 12:30

Location: TBC

Pregnancy, menopause and the kidney

Chairs: TBC

Sharing lived experiences

Increasing creatinine at 30 weeks: when should we deliver the baby?

Pregnancy: an underutilized opportunity to improve long-term kidney health

Menopause and CKD

Abstracts:

- 393: Menopause Hormone Therapy in Women with Kidney Disease
Hannah Beckwith
- 479: Development of a renal-specific women's health prescribing guideline at Imperial College Healthcare NHS Trust
Laura Palmer

Thursday 12 June

11:00 - 12:30

Location: TBC

Best science abstracts

Chairs: Timothy Bowen

Raine Award - Omid Sadeghi-Alavijeh, presented by June Raine

Abstracts:

593: ANKHD1 drives pathogenic proliferation in ADPKD via a Cyclin D1/CDK4 axis: A Novel Therapeutic Target

Maria-Eirini Terzenidou

574: Genome wide association study of UK Biobank data reveals genetic architecture of Urinary Tract Infection

Patrick Trotter

542: A precision medicine approach to stratify focal segmental glomerulosclerosis patients using a glomerulus-on-a-chip microfluidic platform

Alice Gage

508: Indian hedgehog signalling in nephron endowment

David Long

433: Anti-fibrotic therapy improves disease progression in a pre-clinical model of posterior urethral valves

Jessica Trundle

180: Chlorthalidone-induced salt appetite is prevented by afferent renal denervation and by ENaC blockade in Sprague Dawley rats

Babatunde Anidu

12:30 - 13:30

Location: Windsor Exhibition Hall

Lunch & Exhibition

13:30 -15:00

Location: TBC

Frailty, multimorbidity, and cognitive impairment in older potential kidney transplant recipients: it's time for a national paradigm shift

Chairs: TBC

Comprehensive Geriatric Assessment (CGA) as a solution to the barriers of frailty, multimorbidity, and cognitive impairment

Prescribing and polypharmacy in older kidney patients

Patient-centred decision making for older people choosing renal replacement therapy - what have we learned from the KTOP study

Transforming kidney care for older people: challenges and opportunities

Panel Debate and Q and A: Towards a national paradigm shift

Abstracts:

602: Risk of dementia is increased in people with end-stage kidney disease and diabetes: UK population-based study

Robert Kimmitt

424: Advanced Kidney Care and Renal Transplant Assessment - initial analysis of the UK Renal Registry UKRDC data

James Medcalf

13:30 -15:00

Location: TBC

The changing landscape of obesity in CKD – from prevention to treatment

Chairs: TBC

Lived experience patients living with obesity

The importance of an MDT approach in obesity management – building a business case

GLP-1 receptor agonists - When should we intervene with obesity management in CKD?

Debate - BMI - How high can we go?

Multidisciplinary Team Q&A session

Abstracts:

557: Precision medicine in type 2 diabetes: targeting SGLT2-inhibitor treatment for kidney protection

Thijs Jansz

369 Establishing Kidney Fitness In Transplantation (K-FiT), a weight loss programme for renal patients using GLP-1 agonists

Jacqueline Gandy

13:30 -15:00

Location: TBC

What you need to know about ANCA vasculitis – an update on research and guidelines

Chairs: TBC

Overview of the 2024 BSR management recommendations for ANCA-associated vasculitis

Service components associated with improved health outcomes in ANCA-associated vasculitis

New and emerging therapies for ANCA associated vasculitis

Discussion

Abstracts:

185: Comparing outcomes of rituximab versus cyclophosphamide for inducing remission in ANCA associated Vasculitis with severe kidney involvement
Nishant Chaudhari

305: General, nervous system, eye, and skin involvement in the phase 3 trial of avacopan for the treatment of antineutrophil cytoplasmic autoantibody (ANCA)-associated vasculitis (AAV)
Radhika Khanna

13:30 - 15:00

Location: TBC

Practice updates on histopathology of genetic diseases of the kidney affecting adults

Chairs: TBC

When should biopsy and MDT discussion trigger genetic investigations? An overview of current indications for genetic testing in adults

A pathologist's perspective - what to look out for and how to report

Discussion

Abstracts:

348: Rescue of renal function following novel RNA Interference therapy (Lumasiran) for catastrophic recurrent Primary Hyperoxaluria type 1 (PH1) in a kidney transplant
Joseph Sturman

174: Developing a validated liquid biopsy capable of detecting microvascular injury in kidney disease
Matthew Butler

13:30 - 15:00

Location: TBC

Democratising kidney research and practice for equitable patient benefit

Chairs: TBC

Health inequalities: From past to present and beyond

Disability inclusion in kidney care services

Tools to support equity driven quality improvement: Kidney Patient Involvement Network

Abstracts:

251: IMPROVE Kidney care: Perspectives from marginalised and minoritised people with CKD and risk factors for CKD on access to and experience of nephrology services
Rebekah Cheung Judge

392: Living Well with Kidney Disease: the role of the GPwER in improving equitable
Kristin Veighey

Panel Discussion

13:30 - 15:00

Location: TBC

Developments in preventing the complications of immunosuppression in transplant patients

Chairs: TBC

Unravelling the immune factors underlying cutaneous squamous cell carcinoma risk in kidney transplant recipients

Impact of immunosuppression upon vaccine responses in kidney transplant recipients: insights from the MELODY study

Developing an effective vaccine against CMV for immunocompromised individuals

Abstracts:

466: Impact and Management of Monkeypox Infection in Kidney Transplant Recipients: A Systematic Review
Ola Suliman

13:30 - 15:00

Location: TBC

Empowering kidney care for young adults: digital tools & patient-centred strategies

Chairs: TBC

Digital Innovations to empower people

Shared decision making: Empowering patients transforming care

Beyond boundaries: Creating virtual youth communities and broadening the power of peer support

Abstracts:

496: Adopting the evidence-based digital self-management programme 'My Kidneys & Me' for routine clinical care: a qualitative study into transforming kidney care.
Naeema Patel

203: Ravulizumab in atypical hemolytic uremic syndrome: final analysis of efficacy and safety outcomes in two phase 3 trials
David Kavanagh

15:15 - 16:15

Location: TBC

What's next for the Government's 10 Year Health Plan and will it lead to better outcomes for kidney patients?

Chairs: TBC

The role of NHS England in ensuring the 10 Year Health Plan leads to better outcomes for kidney patients

The role of the UKKA in ensuring the 10 Year Health Plan leads to better outcomes for kidney patients

The Scotland policy campaign

Abstracts:

572: "PD-PREDICT": A Machine Learning Tool to Predict Patient Survival in Peritoneal Dialysis Patients
Htaem Ali

15:15 - 16:15

Location: TBC

Making sense of sensitisation

Chairs: TBC

Defining sensitisation

Increasing transplant opportunities for sensitised patients

Abstracts:

201: Lymphocyte depletion post alemtuzumab administration in imlifidase enabled transplants; a UK wide case series
Sara Perkins

15:15 - 16:15

Location: TBC

CAR-T – will it be a game changer in Nephrology?

Chairs: TBC

CAR-T in Haematology: the development, use and adverse effects of CAR-T therapies

CAR-T in Immunology: the biology of cellular therapies.

Abstracts:

227: Neutrophils modulate B cells responses in Systemic Lupus Erythematosus
Marilina Antonelou

15:15 - 16:15

Location: TBC

Ethics & law in kidney care: launching the new UKKA Committee

Chairs: TBC

Panel Discussion

Abstracts:

276: End of life care differs in frail patients whose final admission is managed by renal physicians as compared to non-renal physicians
Hafsa Shaikh

15:15 - 16:15

Location: TBC

Autosomal Dominant Tubulointerstitial Kidney Disease – what you need to know

Chairs: TBC

Tamm-Horsfall protein: the fascinating story you didn't know

ADTKD: Top tips, the 'here & now' and the 'what's coming'

How to do genetic counselling in kidney clinic & the patient story

Q&A
All

Abstracts:

164: Serum and Urine Uromodulin as Biomarkers for Diagnosis and Prognosis in Autosomal Dominant Tubulointerstitial Kidney Disease Due to UMOD Variants (ADTKD-UMOD)
Holly Mabillard

15:15 - 16:15

Location: TBC

Managing behaviours that present challenges in a dialysis setting

Chairs: TBC

Managing behaviours that present challenges in a dialysis setting - Psychological Considerations

Managing a Behaviour incident in the Dialysis Unit at King's College Hospital

MDT discussion

Overview of updated Guidance

Abstracts:

399: Addressing challenging behaviour in a Haemodialysis Unit: A Quality Improvement Approach
Charmene Cruz

15:15 - 16:15

Location: TBC

Glomerular parietal epithelial cells: an exciting frontier in renal cell biology

Chairs: TBC

Glomerular Parietal Epithelial Cells: An Exciting Frontier in Renal Cell Biology

Glomerular Parietal Epithelial Cells: An Exciting Frontier in Renal Cell Biology

Abstracts:

- 489: Single cell transcriptional and chromatin accessibility profiling reveals sex and age specific features associated with adaptive repair in a murine model of Ischaemia Reperfusion Injury
Tanya Smith

Conference ends

Wishing delegates a safe onward journey home.

- We look forward to welcoming you to Harrogate in March 2026.

UK Kidney Week 2025

10 – 12 June 2025
Bournemouth.
