

UK Kidney Week 2025

10 – 12 June 2025

Bournemouth International Centre

CONFERENCE PROGRAMME

11:30 - 12:30

Location: Windsor Exhibition Hall

Lunch and Exhibition

12:30 - 13:45

Location: Solent Hall

Opening Plenary

Presidents' Welcome

Clare Morlidge

Katie Vinen

Renal medicine since 1950: Growing up and quickly

John Feehally

Looking to the future - what's next for kidney care?

Stephen Powis

O'Donoghue Award Lecture - presented by Marie O'Donoghue

Implementing evidence to drive improvement in kidney care

David Wheeler

14:00 - 15:30

Location: Bayview Suite

Nephrology challenges in global healthcare

Chairs: Charlotte Snead Alan Salama

UKKA International work and opportunities
Sunil Bhandari

Epidemic kidney disease in South Asia and Central America: what we (mostly still don't) know
Ben Caplin

The relationship between UK & global nephrology
Liz Lightstone (pre-recorded)

The burden of decisional regret in haemodialysis in LMICs in South East Asia and the need for supportive care
Jyoti Baharani

Striving for scientific and nephrology excellence - A siege to bring global unity
Shahid Muhammad

Abstracts:

550: APOL1 Kidney Disease in the UK: prevalence of high-risk genotypes and disease burden
Amrita Ramnarine

452: The anti-APRIL antibody sibeprenlimab reduced circulating immune complexes in patients with IgA nephropathy in the phase 2 ENVISION randomized controlled trial
Jonathan Barratt

14:00 - 15:30

Location: Purbeck Lounge

Dual challenges: addressing the interplay between mental health and kidney disease

Chairs: Fiona Loud Jo Pywell

Mental health and kidney disease: highlights from the MOODMAPS study
David Wellsted

Unequal care, unequal outcomes: severe mental illness and kidney disease
Claire Carswell

Panel Discussion
Kauser Husain Kate Bramham
Ammaarah Hussain

Abstracts:

538: A systematic review and meta-analysis of the co-occurrence of severe mental illness in chronic kidney disease
Abigail Hucker

253: Developing a new working relationship with talking health teams
Michaela Dicks

14:00 - 15:30

Location: Tregonwell Hall

NEPHwork: Dragons' Den

Chairs: Emma Vaux Sacha Moore

Dragons: James Burton Stephen Marks Sharon Huish Chloe Searle

NEPHwork: spearheading trainee-led collaborative research in nephrology

Pitch 1

Continuous Glucose Monitoring in Kidney Insulin Dependency (CGM-KID): real-world evidence on CGM use in people with diabetes on maintenance dialysis.

Chi Peng Chan

Pitch 2

BK polyomavirus infection in kidney transplant recipients: understanding current UK clinical practice and patient outcomes (BK-UK)

Fay Dickson

Pitch 3

Home Testing for GLOMerular diseases (HOTGLOM).

Kashif Anwari

Abstracts:

363: Investigating kidney biopsy practices and outcomes (IGNITE): results from a UK-wide study of native kidney biopsy practice
Sacha Moore

355: Improving outcomes following medical PD catheter insertion – an ongoing quality improvement project
Yusuf Jinadu

14:00 - 15:30

Location: Solent Hall

Tired of a lack of evidence

Chairs: Kristin Veighey Kieran McCafferty

Evidence gaps in symptom management

Kathrine Parker

Managing pain and itch

Chi Peng Chan

Fatigue: the overlooked burden

Lisa Ancliffe

Paediatric perspective: formulary update

Ben Reynolds

Panel discussion with Q&A

Abstracts:

394: Flourishing with fatigue: establishing a fatigue management programme for advanced kidney care patients
Elyssa Grief

463: Patient reported outcomes analyses from AURORA 1 clinical trial: Lupus Impact Tracker and LupusPRO
Mohamed Ahmed

14:00 - 15:30

Location: Tregonwell 1

The cyclical journey of the AKI patient: points for intervention and improvement

Chairs: Jon Murray Clare Morlidge

Recent trials in perioperative AKI: what do the PROTECTION, SIRAKI and POISE3 trials tell us?

Lui Forni

Moving beyond the syndrome: is it possible to subphenotype AKI?

Nick Selby

The patient journey after AKI

Leah Torr

Panel discussion about post AKI experience

Naomi Edney

Abstracts:

507: Insulin-like growth factor-binding protein is upregulated after acute kidney injury in those with major adverse kidney events at day 90

Rebecca Noble

465: Does timeliness of post-discharge renal function review after inpatient acute kidney injury influence readmission and mortality risk?

Benjamin James

14:00 - 15:30

Location: Tregonwell 2

Cancer, kidney and cardiovascular disease

Chairs: TBC

What are the challenges in treating cancer in patients with CKD?

Ben Elyan

What cardiovascular complications occur in cancer patients?

David Adlam

Is cancer common in people on KRT, and what is the relationship with CVD?

Camille Maringe

The patient experience

Margaret Holgan (pre-recorded)

Panel discussion with Q&A

Abstracts:

382: Acute Kidney Injury is associated with a significant increase in mortality after upper gastro intestinal cancer surgery

Geraint Herbert

491: The influence of comorbidities on longitudinal health-related quality of life in people with chronic kidney disease in the UK: A multicentre cohort study (NURTure-CKD).

Irene Adasi Boateng

14:00 - 15:30

Location: Meyrick Suite

Translating strategies to regulate gene expression into novel kidney disease therapies

Chairs: Tanya Smith Amy Jayne McKnight

RNA interference therapeutics to treat IgA Nephropathy
Jonathan Barratt

Targeting the podocyte with gene therapy, therapeutic development from mouse to man
Moin Saleem

Delivering oligonucleotide therapies during normothermic machine perfusion of donor kidneys
Neil Sheerin

Abstracts:

483: ANKHD1 increases lipid droplet accumulation in renal cells to protect against cellular stress
Jordan Mullenger

244: Exploring disease signature of NPHP1 whole gene deletion using patient derived renal epithelial cells
Juliana Estefania

15:30 - 16:00

Location: Windsor Exhibition Hall

Break and Exhibition

16:00 - 17:00

Location: Poster Halls

Moderated Poster Sessions

17:15 - 18:15

Location: Solent Hall

National Kidney Leadership Summit

Speakers: Prof James Burton, Prof Paul Cockwell, Beverley Bostock, Prof Naresh Kanumilli

This is a non-promotional symposium sponsored and organised by AstraZeneca and is intended for UK HCPs only.

AstraZeneca has provided a sponsorship towards this independent programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the AstraZeneca sponsored symposia

17:15 - 18:15

Location: Tregonwell Hall

The CRM Butterfly Effect: Support the patient, support the system

Speakers: Andrew Frankel Smeeta Sinha

This promotional symposium for UK and Republic of Ireland healthcare professionals only has been developed and funded by Boehringer Ingelheim and products will be discussed. Boehringer Ingelheim has provided funding towards UKKW 2025 with no input into their agenda, speaker selection, presentations or content

NP-GB-105618 | April 2025

17:15 - 18:15

Location: Purbeck Lounge

IgA nephropathy: Translating guidelines, evidence and data into clinical practice

Chair: Professor Jonathan Barratt (University of Leicester)

The Mayer Professor of Renal Medicine and Honorary Consultant Nephrologist

Dr Lisa Willcocks (Cambridge University Hospitals NHS Foundation Trust)

Consultant Nephrologist

Dr Chee Kay Cheung (University of Leicester)

Consultant Nephrologist and Honorary Associate Professor

CSL Vifor

This promotional symposium is organised and funded by CSL Vifor, including honoraria for the speakers. The symposium is intended for UK Healthcare professionals only. CSL Vifor products will be discussed. Prescribing information and adverse event reporting information is available at this meeting

April 2025 UK-SPT-2500053

18:15 - 19:15

Location: Purbeck Hall

Welcome Reception

18:15 - 19:15

Location: Purbeck Hall

SpR Club Reception *please look out for the banner!*

19:30 - 22:30

Location: Marriott Highcliff

Speakers' Dinner *Invite Only*

07:45 - 08.00

Location: Solent Hall

UK Kidney Association Annual General Meeting 75th Anniversary Celebration

Coffee & pastries will be available

08:30 - 09:45

Location: Solent Hall

Plenary

Chairs: Andrew Frankel Lisa Ancliffe

Keynote Speaker

Illuminating mechanisms of kidney disease with intravital imaging
Andrew Hall

UKKA Lifetime Achievement Award

Learning from our misspent youth, embracing future opportunities; The crucial role of UKKA.
Graham Lipkin

Donna Lamping Lecture

Focusing on what matters: rehabilitation, physical activity, and research in multiple long-term conditions
Hannah Young

Dragons Den Winner - Presented by Andrew Frankel

10:00 - 10:45

Location: Solent Hall

Optimising RAASi therapy is everyone's business - what is your role?

Speakers: Dr Andrew Frankel, Dr Sarah Birkhoelzer & Prof Raj Thakkar

This is a promotional symposium sponsored and organised by AstraZeneca and is intended for UK HCPs only.

AstraZeneca 

AstraZeneca has provided a sponsorship towards this independent programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the AstraZeneca sponsored symposia

10:00 - 10:45

Location: Tregonwell Hall

ITCHING TO TALK - Where are we with understanding itch in dialysis patients?

Chair: Dr Kieran McCafferty

Consultant Nephrologist, Barts Health NHS Trust and Senior Lecturer, Queen Mary University London

Dr Khai Ng

Consultant Nephrologist, University Hospitals of Derby & Burton NHS Foundation Trust

Dr Jacqueline Nevols

Consultant Nephrologist, Portsmouth University Hospitals NHS Trust

CSL Vifor

This promotional symposium is organised and funded by CSL Vifor, including honoraria for the speakers. The symposium is intended for UK Healthcare professionals only. CSL Vifor products will be discussed. Prescribing information and adverse event reporting information is available at this meeting.

April 2025 UK-DFK-2500034

10:00 - 10:45

Location: Purbeck Lounge

Assisted peritoneal dialysis: a lifeline or a luxury?

Chair: Dr Osasuyi Iyasere

Consultant Nephrologist, University Hospitals of Leicester NHS Trust

Dr Stan Fan

Consultant Nephrologist, Barts Health NHS Trust

Laura Thompson

Renal Services Lead, South Tyneside and Sunderland Foundation Trust

**FRESENIUS
MEDICAL CARE**

This Educational Symposium is supported by Fresenius Medical Care

10:45 - 11:15

Location: Windsor Exhibition Hall

Break and Exhibition

10:45 - 18:30

Location: Branksome

Interventional nephrology group drop in sessions - all day

Sessions coordinated by Saeed Ahmed

11:15 - 12:15

Location: Solent Hall

Best clinical abstracts

Chairs: Javeria Peracha Lisa Ancliffe

Abstracts:

- 132:** VALIANT: randomized, multicenter, double-blind, placebo-controlled, phase 3 trial of pegcetacoplan for patients with native or post-transplant recurrent C3G or primary IC-MPGN
Daniel Gale
- 195:** Cardiorenal outcomes of pharmaceutical and non-pharmaceutical obesity interventions in people with type 2 diabetes and chronic kidney disease: a propensity-score matched cohort study
Thomas Wilkinson
- 372:** Creatinine Muscle Index (CMI) is independently associated with sarcopenia and mortality in chronic kidney disease
Thomas McDonnell
- 379:** Structured Post-AKI Follow-Up: a nurse-led kidney health check model for improved pharmacological interventions and secondary prevention
Leah Torr
- 459:** Transforming kidney education for primary care professionals: achieving global reach through 'the rest is kidney podcast'
Joana Teles
- 530:** The role of Leucine Rich Alpha-2 Glycoprotein-1 in ANCA-associated Vasculitis
Harry Sansum

11:15 - 12:15

Location: Purbeck Lounge

Caring for our carers

Chairs: Bethan Pettifer

Sharing personal experiences of being a carer
Sue Collins Claire Gaulier (pre-recorded)

Recognising the psychological impact of being a carer
Angela Taylor

Ensuring no one faces kidney disease alone: Kidney Care UK
Sarah Oakley

Giving carers a space to share: Carers Kidney Information Network
Currie Moore

Abstracts:

385: Together in kidney care: advancing peer support with KQIPs collaborative approach
Jyoti Baharani

11:15 - 12:15

Location: Tregonwell Hall

Enhancing nursing in kidney care: education, engagement, and development

Chairs: TBC

How ANN UK are delivering this?
Karen Jenkins

The impact of structured kidney care courses on nurse education
Helen Hurst

The unique challenges and opportunities for overseas nurses
Rhia Fernandez

The role of Communities of Practice (CoP) in fostering continuous learning
Becky Bonfield

Abstracts:

324: Empowering patients and implementing a preventative approach to acute kidney injury through a North West England nurse-led collaborative initiative
Amanda Balshaw-Greer

11:15 - 12:15

Location: Tregonwell 1

CKD-MBD: time for a paradigm shift?

Chairs: Smeeta Sinha Kathrine Parker

KDIGO CKD-MBD controversies – introducing future directions
Sharon Huish

Inflammation and gut dysbiosis as drivers of CKD-MBD
Peter Evenepoel (pre-recorded)

Clinical application of bone biopsy and bone turnover markers in fracture prevention and management
Syazrah Salem

Abstracts:

313: Prevalence and burden of CKD-associated pruritus in the UK: data from the CENSUS-EU study
James Burton

11:15 - 12:15

Location: Tregonwell 2

Dialysis @ home alone - advances in care through remote monitoring and AI

Chairs: Neill Duncan
Alirio Martinho Belchior

Case Studies
Video recording of patients

Practical experience in remote monitoring in home therapy to improve outcomes
John Woods

Artificial intelligence and risk of adverse events in home therapy patients
Mike Kraus (pre-recorded)

Abstracts:

183: Comparative performance of home haemodialysis devices in real-world use
Michael Sagmeister

11:15 - 12:15

Location: Bayview Suite

The power of big data to make a difference

Chairs: *Miranda Scanlon Nigel Brunskill*

Update on BHF data science centre kidney catalyst research prioritisation and phenotyping
Samira Bell

Big data in transplantation
Steve Knight

Using data to understand health inequalities
Simon Sawhney

Abstracts:

147: Comparing ratios of acute to chronic dialysis in england: insights from OpenSAFELY and HES UKRR Data
Esther Wong

11:15 - 12:15

Location: Meyrick Suite

Computational strategies to understand kidney omics

Chairs: *Kieth Siew Laura Denby*

Finding patterns in the kidney: multiomic spatial approaches to glomerular disease
Katherine Bull

Mathematical modelling to augment finding patterns in the kidney
Heather Harrington (pre-recorded)

12:30 - 13:30

Location: Poster Halls

Moderated Poster Session

13:30 - 14:30

Location: Windsor Exhibition Hall

Lunch and Exhibition

14:30 - 16:00

Location: Tregonwell 1

UKKA sustainable kidney care programme: time to scale up

Chairs: Shazia Adalat Mark Harbour

Procuring the future we want - an update from GREEN-K and what this means for UK nephrology
Caroline Stigant (pre-recorded)

An atlas of variation for sustainable UK kidney care
Frances Mortimer

Sustainable kidney care - champions leading change
Lucy Brown Marta Arias

Abstracts:

584: Trying to reduce unnecessary carbon in haemodialysis (TRUNC-HD): a regional sustainability quality improvement project by a kidney network in collaboration with KQIP
Stephanie Choo

371: Sustainability within automated peritoneal dialysis (APD)
Charlotte Callaghan

14:30 - 16:00

Location: Solent Hall

It's Friday, 5pm, and the phone rings...

Chairs: Javeria Peracha Jonathan Briggs

Trouble in transition clinic
Tina Chrysochou

Abstract:

350: A novel form of apparent hypokalemia
Fiona Karet

Dialysis dilemmas: discontinuation of therapy
Hanna Beckwith

Abstract:

260: Acute kidney injury in people with HIV and APOL1 kidney-risk variants
Rachel Hung

Pregnancy and kidney disease: a delicate balance
Nadia Sarween

14:30 - 16:00

Location: Tregonwell Hall

Diet and CKD – controversies and patient perspectives

Chairs: Sharon Huish Tom Wilkinson

Exercise and the protein question – a fine balance
Oscar Walton

Dietary concordance in CKD – does psychology matter?
Sarah Afuwape

Plant based diets in CKD – the FOR and AGAINST debate
Angeline Taylor Deepa Kariyawasam

Abstracts:

404: Setting up a dietetic group education session for patients with chronic kidney disease: a service improvement project
Amy Greenhough

250: Digital health education for patients with chronic kidney disease: strengthening enablers and improving patient outcomes in the NHS
Emma Vaux

14:30 - 16:00

Location: Bayview Suite

Helping older patients make treatment choices about dialysis and transplantation

Chairs: Andrew Nixon Barney Hole

The role of the geriatrician in the kidney unit: the South East London experience
Fionna Martin

Make it meaningful: The role of an Occupational Therapist in AKC
Lisa Ancliffe

Vascular access for the older haemodialysis patient
Damien Ashby

Transplantation for older kidney patients and evolving landscape
John Holland

Abstracts:

239: New haemodialysis starters over 80 years old - demographics, pre-dialysis counselling, and outcomes
Katie Prior

387: Plasma and urinary KIM-1 in chronic kidney disease: prognostic value and implications for kidney failure and mortality
Thomas McDonnell

14:30 - 16:00

Location: Meyrick Suite

Beyond the blueprint: multiomics in kidney disease research

Chairs: Andrew Chetwynd Claire Hill

Cause or consequence? A multiomic journey in biomarker discovery
Inga Prokopenko

Multiomic biomarkers are informing diabetic kidney disease risk
Niina Sandholm

Where we are born, live and work matters: resources to embed exposomics in kidney research
Jenny McKinley

Abstracts:

409: Organ-specific structural and molecular features of the kidney lymphatic vasculature
Daniyal Jafree

488: Ex vivo Precision Cut Kidney Slices (PCKS): a novel model for senescence mechanisms in Chronic Kidney Diseases
Lihuan Liang

14:30 - 16:00

Location: Purbeck Lounge

The rising tide of demand for dialysis: practical steps to help you stay afloat

Chairs: Catherine Byrne Marie Atkins

What has been happening and future projections: UK Renal Registry data and prediction model on demand
Mark Lambie

What was not measured so far: capturing people on conservative care – A Scottish experience
Shona Methwen

Capturing dialysis capacity – the kidney DOM
Peter Wilson Susie Glover

Demand and capacity management in practice – a London experience
Stephen Cass Mark Kowalczyk

Abstracts:

428: Modelling the determinants of unplanned dialysis initiation; A UK Renal Registry analysis
Winnie Magadi

234: CORE Kidney Project: transforming ckd care-a collaborative ICB-level solution for early detection, case finding, coding & optimised management
Harsha Wodeyar

14:30 - 16:00

Location: Tregonwell 2

Vascular access dilemmas: evidence, debate, and patient perspectives

Chairs: Helen Spooner Saeed Ahmed

Setting the scene: navigating vascular access challenges in modern nephrology
Jyoti Baharani

Mapping national variation in haemodialysis central venous catheter management: A UK-wide survey
Yimeng Zhang

Lived experience of vascular access: what I wish I would have been told
Richie Meretighan

Debate:
AVF vs. Tesio: what's the best vascular access for elderly haemodialysis patients?
Tamasin Stevenson Amro Elboushi

Panel discussion with Q&A

Abstracts:

600: Behind the needle: a qualitative exploration of healthcare professionals' perspectives on haemodialysis needling to enhance patients' overall experience
Currie Moore

561: A review of the effectiveness of the tulip (tunnelled line intraluminal plasty) technique for catheter salvage in haemodialysis patients
Shruthi Justin

16:00 - 16:20

Location: Windsor Exhibition Hall

Break and Exhibition

16:20 - 17:20

Location: Solent Hall

Beyond Symptom Management: The Disease-Modifying Effect of Kinpeygo® 4 mg▼ (modified-release hard capsules budesonide)

Chair: Lisa Willcocks

Transforming IgA Nephropathy Treatment: The Role of Kinpeygo® 4 mg▼ (modified-release hard capsules budesonide) in Preventing Nephron Loss
Ruth Pepper

Optimising Patient Outcomes: Real-World Experience and Practical Considerations in IgAN Management
Richard Hull

Q&A and Open Discussion - Closing Remarks & Final Reflections

The symposium is sponsored by STADA UK. The symposium is intended for UK healthcare professionals only and may contain promotional content.

16:20 - 17:20

Location: Tregonwell Hall

Transforming kidney care

Speakers: Dr Matthew Graham-Brown, Dr Kristin Veighey & Dr Waqas Tahir

This is a non-promotional symposium sponsored and organised by AstraZeneca and is intended for UK HCPs only.

AstraZeneca has provided a sponsorship towards this independent programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the AstraZeneca sponsored symposia.

16:20 - 17:20

Location: Purbeck Lounge

Before the Damage Is Done: Proactive Monitoring and Management in LN

Chair: Dr Veena Reddy

Speakers: Veena Reddy, Hannah Guest, Peter Hewins

A promotional symposium organised and funded by Otsuka Pharmaceuticals UK. For UK healthcare professionals only.

17:30 - 18:30

Location: Tregonwell 2

Behind closed doors: the invisible chaos. How can we support patients who self neglect/hoard?

Chairs: Fez Awan Sarah Afuwape

Starting a conversation about how we can all support patients with self-neglect and hoarding challenges.

Linda Evans

The role of a community interest company

Jo Cooke

Prevention and risk from a community safety perspective

Paul Francis

Can the law help? 'A binary best interest choice' safeguarding v control

Bethan Pettifer

A case study – an insight into working with an individual

Hazel Hood

Panel with audience discussion

Abstracts:

241: The impact and efficacy of an early home visit in a low clearance pathway

Elettra Agordati

17:30 - 18:30

Location: Purbeck Lounge

Clinical trials and tribulations: innovative methods and inclusive designs

Chairs: James Fotheringham Tom Wilkinson

Sustainable and greener clinical trials: strategies to reduce the carbon footprint of clinical trials

Keith Moore

Digitally enabled clinical trials: how digital tools can be used for the recruitment, assessment, and retention of participants within clinical trials

Jacqueline Nuttall

Increasing diversity and inclusion in nephrology clinical trials

Rona Smith

Panel and audience discussion

Abstracts:

322: The relative and absolute quantity of qualitative research in nephrology, compared to other specialities: a scoping review covering two decades

Matt Gittus

17:30 - 18:30

Location: Solent Hall

Blood pressure management in dialysis patients: an overview of the UKKA 2025 guidelines

Chairs: *Katie Durman* *Indranil Dasgupta*

What's new, what's different and challenges faced
Tim Doulton

Patient perspective
Ed Jenkinson (pre-recorded video)

Non-pharmacological management of HTN in dialysis
Pauline Swift

Pharmacological management
Charlotte Mallindine

BP measurement and target BP
Mariyam Adam

Abstracts:

130: A novel system to continuously estimate blood pressure in real time during haemodialysis: comparison against standard brachial cuff blood pressures
Nick Selby

17:30 - 18:30

Location: Tregonwell Hall

#BloodyAmazing Kidneys – moving the dial

Chairs: *Becky Bonfield* *Paul Bristow*

Why #BloodyAmazingKidneys
Fiona Loud *Sharon Woodward*

How can we open primary care to respond to the growing need for CKD diagnosis/screening
Kristin Veighey

How combining the best of primary and secondary care can move the prevention dial
Vicky Ashworth

What I wish I'd known before and after my CKD diagnosis
Dee Moore

Making the case for change - what is working in other countries
Brian Kenedy (pre-recorded video)

Panel Discussion with Q&A on how these learnings can take us forward in changing the dial on the relentless rise in CKD and practical steps to do so

Abstracts:

270: Raising awareness of chronic kidney disease (CKD) and campaigning for the adoption of a national action plan on CKD in Scotland
Jeremy Hughes

17:30 - 18:30

Location: Tregonwell 1

Best practices in renovascular disease

Chairs: Sacha Moore Matt Graham-Brown

Best practice in atherosclerotic renovascular disease
Philip Kalra

Best practice in fibromuscular dysplasia
Constantina Chrysochou

Panel discussion with Q&A
Above speakers and Darren Green

Abstracts:

398: Monitoring of potassium and eGFR following renin angiotensin system inhibitor (RASi) initiation – a necessary safety guideline, or a costly limit to optimisation of BP treatment in primary care?
Pritti Aggarwal

17:30 - 18:30

Location: Meyrick Suite

Cilia and cystic kidney disease

Chairs: Holly Mabillard Melanie Chan

Primary cilia and paediatric cystic kidney disease – the underlying disease processes
Rebecca Walker

Mending broken cilia: the therapeutics of renal ciliopathies
John Sayer

Rare ciliopathy family perspective: navigating a diagnosis, kidney transplantation and contributing to research
Sarah Bingham

Abstracts:

- 502:** Genetic mutation type and cerebral aneurysm screening in ADPKD patients
Noella Ahn

17:30 - 18:30

Location: Bayview Suite

Peritoneal dialysis in focus: innovations, patient perspectives, and practical approaches for 2025

Chairs: Mark Lambie Jayne Woodhouse

Framing the future of peritoneal dialysis: key themes for 2025 and beyond – future-proofing PD
Gerry Endall

Lived experience of PD – what clinicians didn't tell us before we started PD but we wish they had
Niki Simmons Ian Osman

Glucose in PD: ally or enemy? Alternatives on the horizon
Jyoti Bhararani

Different strokes for different folks. A decade of experience with weighted PD catheters
Heidi Jimenez

Abstracts:

567: Creating a standardised root case analysis tool for post-peritonitis: a regional approach?
Catherine Stannard

18:30 - 19:30

Location: Free Time

Free Time For All Delegates

19:30 - 23:00

Location: Purbeck Hall

Conference Dinner (pre-booked reservations only)

Thursday 12 June

08:30 - 09:45

Location: Solent Hall

Plenary

Chairs: Tim Bowen Sunil Bhandari Tom Wilkinson

Keynote Speaker

The Importance of Addressing that Gut Feeling

Kelly Lambert

Osman Award Lecture

Amy Jane McKnight

Stewart Cameron Award Lecture

The filtration barrier and me: greater than the sum of its parts

Becky Foster

10:00 - 10:30

Location: Solent Hall

Management of low haemoglobin in dialysis patients: Comparing the new KDIGO and UKKA Guidelines

Welcome and introduction

Albert Power

Management of low haemoglobin in dialysis patients: Comparing the new KDIGO and UKKA Guidelines

David Wheeler Sunil Bhandari

Interactive Poll

Albert Power

This promotional symposium is organised and sponsored by MEDICE UK and is intended for UK HCPs only. MEDICE UK products will be discussed in this meeting.

MEDICE UK has provided sponsorship towards UK Kidney Week 2025. MEDICE UK has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence except for the MEDICE UK sponsored promotional symposia.

10:00 - 10:30

Location: Tregonwell Hall

Percutaneous PD Catheter Insertion – Virtual Reality- Innovative awareness PD catheter insertion.

Speakers: Patrick Jolomba Research in (Tissue engineering and Regenerative medicine), PhD candidate and Dr. Lu Dai

Vantive

A promotional symposium organised and funded by Vantive. For UK healthcare professionals only

10:00 - 10:30

Location: Purbeck Lounge

Finding rare diagnoses in common kidney stones

Speakers: Dr Shabbir Moochhala – The Royal Free Hospital

Dr Graham Lipkin – University Hospitals Birmingham

10:30 - 11:00

Location: Windsor Exhibition Hall

Break and Exhibition

11:00 - 12:30

Location: Tregonwell Hall

Management of patients after kidney transplantation – a multi-professional, evidence based approach

Chairs: Stephen Marks Sara Perkins

Immunosuppression, rejection risk and infections – evidence based approach

Charlotte Mallindine

How to prevent cardiovascular events after kidney transplantation

Eirini Lioudaki

Prevention of neoplasms in post kidney transplantation

Abbas Ghazanfar

Patient perspective

Kudz Munongi

Panel discussion

Abstracts:

474: Transplant care in the UK - what do people with kidney disease think?

Fiona Loud

505: Is this what nurses working in renal need ? A four day renal nurse education programme - how does it evaluate?

Ann-Marie McCarthy

11:00 - 12:30

Location: Solent Hall

Tried & Tested: tackling health inequalities in CKD with community outreach & patient education across England & Wales

Chairs: *Nikki Thomas Jyoti Baharani*

Abstracts:

327: A pilot of automated reporting of KFRE
Shahmir Rashid

616: health inequalities in kidney disease: meeting the urgent need to identify early disease in high-risk communities: (HIDDEN-CKD) – fidelity of implementation of peer-led kidney screening
Roseline Agyekum

The hidden CKD toolkit – how to set up a CKD community outreach programme
Linda Tarm

Leveraging ICB practitioners and local policy makers' feedback on the HIDDEN-CKD model to understand the barriers and opportunities for implementing community kidney screening
Rachel Musomba

The South Wales D-PACTED experience: lessons learned in running a DKD peer-educator programme
Alex Wonnacott

London Kidney Network & Kidney Care UK – live interactive webinars for people living with early-stage CKD
Joana Teles

Kidney Essentials: digital health education for patients with chronic kidney disease
Emma Vaux

The Southampton Kidney Health Programme: a pilot multidisciplinary-led primary care network patient education programme
Kristin Veighey

CKD patient education: what has and hasn't worked? Hearing from those with lived experience
Tracey Redwood Rajani Ponnada

11:00 - 12:30

Location: Meyrick Suite

Challenges and opportunities for rehabilitation in CKD

Chairs: Tom Wilkinson Lisa Ancliffe

Introduction: frail and hospitalised with kidney disease
Lyndsey Abdunnassir

Interprofessional working case studies in practice
Laura Lew Helena Jackson Lyndsey Abdunnassir

Action plan: building a business case for AHP provision within your service
Laura Lew

Panel discussion with Q&A

Abstracts:

158: Why hasn't physical activity been implemented in practice within kidney care: a comprehensive review informed by implementation science
Hannah Young

527: The multi-professional workforce in the London Kidney Network - roles, challenges and variation
Katie Durman

11:00 - 12:30

Location: Tregonwell 1

Integrating kidney genetics into your clinical practice

Chairs: Pritti Aggarwal Haresh Selvaskendan

A MDT of nephrology, clinical genetics and genetic counsellors will discuss four kidney genetics cases
Laura Yates Lorraine Cowley Holly Mabillard John Sayer

Abstracts:

499: National whole genome sequencing service in renal cystic disease impacts patient management and prognostication
Tobias Maccarthy

504: Establishing and delivering a renal genetics service within the NHS: lessons learnt over 20 years in practice
Joshua Griffiths

Thursday 12 June

11:00 - 12:30

Location: Tregonwell 2

Multi-morbidity – the importance of the cardio kidney metabolic syndrome

Chairs: *Debashish Banerjee Pooja Gudka*

Diagnosis, epidemiology, and screening of CKM
Mimi Chen

CKM – A Nephrologists take-home points on management
Smeeta Sinha

CKM – A Cardiologists take-home points on pathophysiology and management
Lisa Anderson

CKM panel discussion and Q&A
Panel of pharmacists Azhar Ala

Abstracts:

137: Variation in acute myocardial infarction management by kidney function across cardiology centres in England: a cross-sectional study using the Myocardial Ischaemia National Audit Project (MINAP)
Patrick Bidulka

352: Impact of integrated cardiovascular-kidney-metabolic care on mortality and renal outcomes: a propensity-matched analysis
Saif Al-Chalabi

11:00 - 12:30

Location: Bayview Suite

Pregnancy, menopause and the kidney

Chairs: *Priscilla Smith Matt Hall*

Sharing lived experiences
Hayley Martin Katie Wiles

Increasing creatinine at 30 weeks: when should we deliver the baby?
Ken Hodson

Pregnancy: an underutilised opportunity to improve long-term kidney health
Kate Duhig

Menopause and CKD
Vikram Talaulikar

Q&A with lived experiences

Abstracts:

393: Menopause hormone therapy in women with kidney disease
Hannah Beckwith

479: Development of a renal-specific women's health prescribing guideline at Imperial College Healthcare NHS Trust
Hannah Beckwith

Thursday 12 June

11:00 - 12:30

Location: Purbeck Lounge

Best science abstracts

Chairs: *Tim Bowen Jill Norman*

Raine Award - Omid Sadeghi-Alavijeh, presented by June Raine
Decoding the Genetic Landscape of Inherited Kidney Diseases

Science abstracts:

- 298:** Vincristine treatment reverses podocyte damage in focal segmental glomerulosclerosis
William Mason
- 433:** Anti-fibrotic therapy improves disease progression in a pre-clinical model of posterior urethral valves
Jessica Trundle
- 508:** Indian hedgehog signalling in nephron endowment
David Long
- 542:** A precision medicine approach to stratify focal segmental glomerulosclerosis patients using a glomerulus-on-a-chip microfluidic platform
Alice Gage
- 574:** Genome wide association study of UK Biobank data reveals genetic architecture of urinary tract infection
Patrick Trotter
- 593:** ANKHD1 drives pathogenic proliferation in ADPKD via a Cyclin D1/CDK4 axis: a novel therapeutic target
Maria-Eirini Terzenidou

12:30 - 13:30

Location: Windsor Exhibition Hall

Lunch and Exhibition

13:30 -15:00

Location: Tregonwell Hall

Frailty, multimorbidity, and cognitive impairment in older potential kidney transplant recipients: it's time for a national paradigm shift

Chairs: *Antonia Cronin Helen Hurst*

Perioperative Comprehensive Geriatric Assessment (CGA): a national success story
Judith Partridge

Comprehensive Geriatric Assessment (CGA) as a solution to the barriers of frailty, multimorbidity, and cognitive impairment
John Holland

Prescribing and polypharmacy in older kidney patients
Jaskiran Sanghera

Transforming kidney care for older people: challenges and opportunities
Andy Nixon

Panel debate and Q & A: towards a national paradigm shift

Abstracts:

602: Risk of dementia is increased in people with end-stage kidney disease and diabetes: UK population-based study
Robert Kimmitt

424: Advanced kidney care and renal transplant assessment - initial analysis of the UK Renal Registry UKRDC data
James Medcalf

13:30 -15:00

Location: Solent Hall

The changing landscape of obesity in CKD – from prevention to treatment

Chairs: *Adrian Brown Sarah Afuwape*

Lived experience patients living with obesity
Video recording of patients

The importance of an MDT approach in obesity management – building a business case
Theresa Harvey-Dunstan

GLP-1 receptor agonists - when should we intervene with obesity management in CKD?
Tricia Tan

Debate - BMI - how high can we go?
Ammar Almidani

MDT Q&A session
Above speakers inc Adrian Brown Sarah Afuwape Kieran McCafferty

Abstracts:

557: Precision medicine in type 2 diabetes: targeting SGLT2-inhibitor treatment for kidney protection
Thijs Jansz

369: Establishing Kidney Fitness In Transplantation (K-FiT), a weight loss programme for renal patients using GLP-1 agonists
Jacqueline Gandy

13:30 -15:00

Location: Purbeck Lounge

What you need to know about ANCA vasculitis – an update on research and guidelines

Chairs: Sally Hamour Cathy Pogson

Overview of the 2024 BSR management recommendations for ANCA-associated vasculitis
Lorraine Harper

Service components associated with improved health outcomes in ANCA-associated vasculitis
Rosemary Hollick

New and emerging therapies for ANCA associated vasculitis
Stephen McAdoo

Panel discussion and Q&A

Abstracts:

185: Comparing outcomes of rituximab versus cyclophosphamide for inducing remission in ANCA associated Vasculitis with severe kidney involvement
Nishant Chaudhari

305: General, nervous system, eye, and skin involvement in the phase 3 trial of avacopan for the treatment of antineutrophil cytoplasmic autoantibody (ANCA)-associated vasculitis (AAV)
Lucy Francis

13:30 - 15:00

Location: Tregonwell 1

Practice updates on histopathology of genetic diseases of the kidney affecting adults

Chairs: Candice Roufosse Catherine Horsfield

A Pathologist's perspective - what to look out for
Anna Paterson

When should a kidney biopsy trigger genomic testing? Current indications and clinical implications
Melanie Chan

Panel discussion with Q&A

Abstracts:

348: Rescue of renal function following novel RNA Interference therapy (Lumasiran) for catastrophic recurrent Primary Hyperoxaluria type 1 (PH1) in a kidney transplant
Joseph Sturman

174: Developing a validated liquid biopsy capable of detecting microvascular injury in kidney disease
Matthew Butler

13:30 - 15:00

Location: Tregonwell 2

Democratising kidney research and practice for equitable patient benefit

Chairs: Courtney Lightfoot Neerja Jain

Health inequalities: from past to present and beyond
Shivani Sharma

Tools to support equity driven quality improvement:
Kidney Patient Involvement Network
Amanda Bushby Lucy Mackintosh

Panel discussion and Q&A
Manvir Kaur Hayer Tim Ringrose Mohammed Islam
Lucy Plumb

Abstracts:

- 251:** IMPROVE Kidney care: Perspectives from marginalised and minoritised people with CKD and risk factors for CKD on access to and experience of nephrology services
Rebekah Cheung Judge
- 392:** Living Well with Kidney Disease: the role of the GPwER in improving equitable
Jo Curtis

13:30 - 15:00

Location: Meyrick Suite

Developments in preventing the complications of immunosuppression in transplant patients

Chairs: Mohammed Al-Talib Joyce Popoola

Unravelling the immune factors underlying cutaneous squamous cell carcinoma risk in kidney transplant recipients
Matthew Bottomley

Impact of immunosuppression upon vaccine responses in kidney transplant recipients: insights from the MELODY study
Michelle Willicombe

Developing an effective vaccine against CMV for immunocompromised individuals
Matthew Reeves

Abstracts:

- 466:** Impact and management of monkeypox infection in kidney transplant recipients: a systematic review
Ola Suliman
- 614:** Case series of Parvovirus B19 infection associated with pure red cell aplasia post solid organ transplantation
Dalal Mohamed

13:30 - 15:00

Location: Bayview Suite

Empowering kidney care for young adults: digital tools & patient-centred strategies

Chairs: Jan Dudley

Digital Innovations to empower people
Graham Lipkin Arvind Nagra

Shared decision making: empowering patients transforming care
Kay Tyerman

Beyond boundaries: creating virtual youth communities and broadening the power of peer support
Sarah Sharmeti

Abstracts:

- 496:** Adopting the evidence-based digital self-management programme 'My Kidneys & Me' for routine clinical care: a qualitative study into transforming kidney care.
Naeema Patel
- 203:** Ravulizumab in atypical hemolytic uremic syndrome: final analysis of efficacy and safety outcomes in two phase 3 trials
David Kavanagh

15:15 - 16:15

Location: Solent Hall

What's next for the Government's 10 year health plan and will it lead to better outcomes for kidney patients?

Chairs: Sandra Currie Mickie Dicks

The role of government clinical advisers in ensuring the 10 year health plan leads to better outcomes for kidney patients

Smeeta Sinha Gavin Dreyer

The role of primary care in ensuring the 10 year health plan leads to better outcomes for kidney patients

Javeria Peracha Daniel Newman

The role of the UKKA in ensuring the 10 year health plan leads to better outcomes for kidney patients

Katie Vinen

The Scotland policy campaign

Jeremy Hughes

Abstracts:

572: "PD-PREDICT": a machine learning tool to predict patient survival in peritoneal dialysis patients
Htaem Ali

15:15 - 16:15

Location: Purbeck Lounge

Making sense of sensitisation

Chairs: Sian Griffin Sumoyee Basu

Defining sensitisation

Adrienne Sletz

Increasing transplant opportunities for sensitised patients

Matthew Robb

Abstracts:

201: Lymphocyte depletion post alemtuzumab administration in imlifidase enabled transplants; a UK wide case series
Sara Perkins

15:15 - 16:15

Location: Bayview Suite

CAR-T – will it be a game changer in nephrology?

Chairs: Ruth Pepper Sally Hamour

CAR-T in haematology: the development, use and adverse effects of CAR-T therapies

Andrea Cove-Smith

CAR-T in immunology: the biology of cellular therapies

Mike Northend

Abstracts:

227: Neutrophils modulate B cells responses in Systemic Lupus Erythematosus
● Marilina Antonelou

15:15 - 16:15

Location: Tregonwell Hall

Ethics & law in kidney care: launching the new UKKA Committee

Chairs: John Roberts Marie Condon

Panel Discussion

Jordan Parsons Ben Thomas Sahiti Koneru Jan Dudley Antonia Cronin Ilana Raburn

Abstracts:

276: End of life care differs in frail patients whose final admission is managed by renal physicians as compared to non- renal physicians
Hafsa Shaikh

15:15 - 16:15

Location: Tregonwell 2

Autosomal Dominant Tubulointerstitial Kidney Disease – what you need to know

Chairs: Matt Gittus Fiona Karet

Tamm-Horsfall protein: the fascinating story you didn't know
Holly Mabillard

ADTKD: Top tips, the 'here & now' and the 'what's coming'
John Sayer

How to do genetic counselling in kidney clinic & the patient story
Angela Watt Daniel Watt Laura Watt (pre-recorded)

Panel Discussion and Q&A

Abstracts:

164: Serum and urine uromodulin as biomarkers for diagnosis and prognosis in autosomal dominant tubulointerstitial kidney disease due to UMOD variants (ADTKD-UMOD)
Holly Mabillard

15:15 - 16:15

Location: Tregonwell 1

Managing behaviours that present challenges in a dialysis setting

Chairs: TBC

Managing behaviours that present challenges in a dialysis setting - psychological considerations
Janette Moran (Virtual) Helen Cronin

Managing a behaviour incident in the dialysis unit at King's College Hospital
Chelsie Sills

MDT discussion
Helen Cronin Chelsie Sills

Overview of updated guidance
Sarah McMillan

15:15 - 16:15

Location: Meyrick Suite

Glomerular parietal epithelial cells: an exciting frontier in renal cell biology

Chairs: Anne-Catherine Raby Patricia Wilson

Glomerular parietal epithelial cells: an exciting frontier in renal cell biology
Wenbin Liu

scRNA-seq locates ALDH1A2-mediated retinoic acid synthetic pathway to glomerular parietal epithelial cells: mapping ALDH1A2 genetic variants to phenotypes in patients with nephrotic syndrome
Qihe Xu

Abstracts:

489: Single cell transcriptional and chromatin accessibility profiling reveals sex and age specific features associated with adaptive repair in a murine model of Ischaemia Reperfusion Injury
Tanya Smith

Conference ends

Wishing delegates a safe onward journey home.

- **We look forward to welcoming you to Harrogate for UK Kidney Week 2026 10-12 March 2026**

Session proposal submissions open: 30 June 2025

Abstract submissions open: 2 July 2025

Abstract submissions close 19 Sep 2025

Registration opens: 13 October 2025

UK Kidney Week 2025

10 – 12 June 2025
Bournemouth

Keep the #UKKW25
conversation going

@ukkidney
